

Amendments to the Specification

Please amend the Achievement of the Object section appearing on page 1, line 30 through page 2, line 3 as follows:

-- This object is achieved when an annularly shaped element, which radiates a magnetic field, is inserted into a vagina of a woman or into an anal region of a living being, the element being flexible and comprising an annularly shaped inert tube. ~~[[,]] in which~~ ~~[[m]]~~ Magnetized or magnetisable balls are introduced within the inert tube in an attractive alignment ~~[[,]]~~; alternatively ~~[[or]]~~ magnetized or magnetisable rings are introduced within the inert tube and arranged ~~in adjacent rows~~ in magnetically charged opposite alignment ~~[[,]]~~. ~~and which tube is shaped to form a ring.~~--
